I put this on my calendar. I probably will not attend both meetings. I just want to hear the discussion so I know what is going on.

Lee,

Here's the invite to tomorrow's (Tuesday) 10-11am Pend Oreille pre-brief for Tom Wall. The briefing materials are attached. It's basically about whether WA's aggregation of model data to set the TMDL's allocations is consistent with its - and the tribe's - WQS which are expressed as daily max limits. **Ex. 5 - Deliberative** These meetings are to get Tom and Denise up to speed in advance of a big planned stakeholder meeting between EPA, WA and the Tribe at end of August.
